ANNOUNCEMENT 1907-1908

GRADUATES DIRECTORY

BOARD OF ADMINISTRATION.

Ex-Officio Members :

- HIS EXCELLENCY, NEWTON C. BLANCHARD, *Governor of Louisiana*, Baton Rouge.
DR. JAMES B. ASWELL, *State Superintendent of Public Education*, Baton Rouge.
B. C. CALDWELL, *President State Normal School*, Natchitoches.

Representative Members :

- HON. THOS. C. BARRET, *First District*, Shreveport.
Term Expires July 1st, 1908.
JUDGE J. L. DAGG, *Second District*, Vidalia.
Term Expires July 1st, 1910.
JUDGE A. J. LAFARGUE, *Third District*, MarksVille.
Term Expires July 1st, 1910.
HON. L. D. BEALE, *Fourth District*, Baton Rouge.
Term Expires July 1st, 1912.
HON. JOHN MARKS, *Fifth District*, Napoleonville.
Term Expires July 1st, 1912.
DR. Z. T. GALLION, *Resident Administrator*, Natchitoches.
Term Expires July 1st, 1908.
-

OFFICERS OF THE BOARD.

CALENDAR 1907-1908.

1907.

October 1st, Tuesday - - Fall Term Begins.
November 28th, Thursday - Thanksgiving Day holiday.
December 25th, Wednesday Christmas holiday.

1908.

January 17th, Friday - - Fall Term ends.

January 20th, Monday - Spring Term begins.
May 10th-13th, Sunday-
Wednesday - - Commencement.
May 13th, Wednesday - Spring Term ends.
May 13th-June 1st - - Spring Vacation.

June 1st, Monday - - Summer Term begins.
September 18th, Friday - Summer Term ends.
September 18th-October 1st Fall Vacation.

October 1st, Thursday - Session of 1908-1909 begins.

There will be no Christmas vacation.

One-day holidays will be given on Thanksgiving Day and
Christmas Day.

TEACHERS.

B. C. CALDWELL, President.

J. W. HECKERT, Training Teacher, Pedagogy.

GEORGE WILLIAMSON, Biology and Agriculture.

GEO. D. PICKELS, Psychology, Physics and Chemistry.

LIZZIE CARTER MCVOY, English.

AGNES H. MORRIS, History and Civics.

LILLIAN MILDRED KNOTT, Singing.

J. M. CARPENTER, Latin.

✓ JULIA M. ROCHEFORD, Algebra and Geometry.

ROBERTA NEWELL, Arithmetic and Bookkeeping.

✓ MARY E. SWIFT, Drawing and Manual Training.

W. K. PALMQUIST, Gymnastics and Public Speaking.

JOHN C. SOUTH, Writing.

JESSIE M. JONES, Violin.

PEARL C. LOEFFLER, Piano.

ELLA F. MONTGOMERY, Piano.

MABEL UNDERWOOD, Piano.

ZEFFIE M. SMITH, Librarian.

MARGARET AVERILL, Secretary-Cashier.

ELIZABETH R. LOBDELL, Matron-Steward.

GEORGE FREEMAN, Engineer.

MINOR CLINTON, Janitor.

State Normal School

The Normal School was established by Act of the General Assembly of Louisiana July 7, 1884. The State Board of Education located the school at Natchitoches, and the buildings and grounds of the Convent of the Sacred Heart were bought by the Parish of Natchitoches and given to the school.

The first session began November 1, 1885. Dr. Edward E. Sheib was president from 1885 to 1888, and Col. Thomas D. Boyd from 1888 to 1896.

The Act of Establishment declares that the school shall be maintained "for the benefit of such white persons of either sex as may desire and intend to teach in the public schools of Louisiana."

The Normal School is maintained by the State to train teachers for the public schools.

The necessary equipment of the successful teacher includes wholesome personality, sound scholarship and technical skill. The first of these cannot be furnished by any school, it comes by inheritance and early environment; but it is the function of the Normal School to enlarge and strengthen it, and to add to it the qualifications of liberal learning and teaching power.

The course of training is planned with these ends in view. The first two and a half years of the course aim at thoroughness in mastery of the subjects of the public-school course, while the last year and a half are given chiefly to the study of teaching and to practice work in the Model School.

The conditions maintained at the Normal School give an environment that tends steadily to develop character and capacity for work. The course of study, the professional training, the companionship of hundreds of young men and women engaged in a common life-work, the intimate contact with many strong teachers, and the lectures and addresses given by scholarly men from all parts of the country, help to establish high ideals of service. The stimulating influence of the literary

NEW BUILDING

NORMAL HALL,

societies, the opportunity to hear really good music and to see some good pictures and statuary, and the use of the library, with its thousands of books and fresh periodical literature, help to refine the taste, quicken the appreciation and strengthen the love of learning.

COURSE OF STUDY.

There is but one course offered, the teachers' training course. It covers a period of thirty-two months, divided into eight terms of four months each.

Students are admitted to any term for which they are prepared. To enter the first term applicants must pass examination in English, arithmetic, American history and geography. Students of better attainments may enter a higher term, and complete the course in correspondingly less time.

Students who wish to make special preparation for any line of teaching may be allowed to substitute chosen subjects for those prescribed for any term, provided these subjects represent the full equivalent of the omitted subjects.

All subjects of the course are given every term, so that students may begin the course at any time of the year.

EAST DORMITORY

THE COURSE BY TERMS.**FIRST YEAR.****FIRST TERM.**

1. English. ✓
2. Arithmetic.
3. American History.
4. Geography.
5. Singing.
6. Drawing.

SECOND TERM.

1. English.
2. Algebra.
3. English History.
4. Botany.
5. Singing.
6. Drawing.

SECOND YEAR.**THIRD TERM.**

1. Latin. ✓
2. General History.
3. Algebra.
4. Zoology.
5. Singing.
6. Drawing.

FOURTH TERM.

1. Latin.
2. Literature. ✓
3. Geometry.
4. Bookkeeping.
5. Singing.
6. Drawing.

THIRD YEAR.**FIFTH TERM.**

1. Latin.
2. Literature.
3. Geometry.
4. Physiology.
5. Civics and School Law.
6. Writing and Spelling.

SIXTH TERM.

1. Latin.
2. History of Education.
3. Physics.
4. Psychology.
5. Reading and Public Speaking. ✓
6. Writing and Spelling.

FOURTH YEAR.**SEVENTH TERM.**

1. Latin.
2. Pedagogy.
3. Practice Teaching.
4. Chemistry.
5. English.
6. Manual Training.

EIGHTH TERM.

1. Latin.
2. Pedagogy.
3. Practice Teaching.
4. Agriculture.
5. English Discourse.
6. History of Music and Art.

OUTLINE OF SUBJECTS.

ENGLISH.

First Term. Buehler's Grammar. Four months' study of technical grammar, mainly of the English sentence.

Second Term. Webster's Composition. Application of grammar to the writing of good English; study of the principles of rhetoric and style.

Fourth Term. Study of standard literature, reading and discussion of masterpieces. For the current term, Silas Marner, Sesame and Lilies, Vicar of Wakefield, Flight of a Tartar Tribe, Brooks' Primer of English Literature.

Fifth Term. Mainly the study of Poetry. For the current term, The Princess, Intimations of Immortality, L'Allegro, The Skylark, Cotter's Saturday Night, Carlyle's Essay on Burns, Merchant of Venice, Julius Cæsar, Spencer's Philosophy of Style.

Sixth and Seventh Terms. Study of spoken English. Speech sounds, articulation, voice, gesture, emphasis, expression, interpretation; public speaking, extemporaneous speech, parliamentary usage, elements of oratory.

Eighth Term. English Discourse. Study of type-forms of composition; analysis of representative masterpieces in various forms, poem, essay, story and drama; original exercises in these and other forms of composition.

LATIN.

Third Term. Collar and Daniell's First Year Latin. Study of inflection and the Latin sentence; Latin-English and English-Latin translation; sight reading of easy Latin; colloquia.

Fourth Term. Same text-book. Latin construction and syntax; references to grammar, use of lexicon; oral and written Latin; colloquia.

Fifth Term. Greenough, D'Ooge and Daniell's Second Year Latin.

**MATRON'S BUILDING**

Sixth Term. Reading from Pliny, Sallust and the Gallic War; further study of syntax, idioms and colloquia; lectures on Roman life and literature.

Seventh Term. The Gallic War continued; Orations and Letters of Cicero; prose composition, sight reading and lectures.

Eighth Term. The Aeneid; scansion; study of metrical composition; lectures.

ARITHMETIC.

First Term. Smith's Grammar School Arithmetic. Drill in writing, combining and separating numbers; analysis of problems; methods of verification; measurement; ratio; business calculation.

ALGEBRA.

Second Term. Wentworth's School Algebra. The course given in the book is studied through quadratic equations, and supplemented with problems from the arithmetics and questions brought to class by students.

Third Term. Same text-book, finished.

GEOMETRY.

Fourth Term. Wentworth's Plane Geometry. Study of the course given in the text-book; construction of geometric forms in cardboard; original demonstration of problems of measurement and familiar principles used in building and surveying.

Fifth Term. Completion of plane geometry, two months; solid geometry, two months.

BOOKKEEPING.

Fourth Term. No text-book is used; manuals and reference-books are kept in class-room for use of students. While this course is called bookkeeping, it is planned to give a general acquaintance with business operations, such as the teacher must have. Analysis of a business transaction, and the conditions requiring a record of it; use of day-book and cash-book; the ledger; special-column books for grouping entries; business forms; summary of results, balance sheets and exhibits.

THE LAKE FRONT

WRITING.

Fifth and Sixth Terms. The first part of the course aims to secure free use of the larger muscles. This frequently requires several months of practice. After it is learned, the remainder of the course is given to study of the letters. Absolute simplicity of form and ease and speed in writing are the results sought. Blackboard writing is studied with as much care as desk writing.

HISTORY.

First Term. Elson's American History. Students read the whole book, parts of it in class, most of it at home. Considerable collateral reading in the library is required. The aim is to give a coherent knowledge of the whole story.

Second Term. Cheyney's History of England. This course has the same purpose and is presented in the same way as the preceding.

Third Term. Myer's General History. The study of ancient and mediæval history takes the student back to the beginning of the human story, after which there is a progressive study of institutions and governments up to the present.

Fifth Term. Civics. Hinsdale's American Government. The text-book is supplemented with a hand-book of Louisiana government and politics, prepared by the teacher.

NATURAL SCIENCE.

First Term. Tarr & McMuray's Geography. The method of the book is applied to study of local geography; field excursions, study of saw-mill and oil-mill, observations of weather, check-lists of plants and animals, collections of minerals and of agricultural and manufactured products; photographs and specimens exchanged with students in other States and countries.

Second Term. Bailey's Botany. Study of gross and microscopic structure; experiment in germination and growth; identification of plants with manuals; collection of flowers, grasses and seeds.

MODEL SCHOOL

MODEL SCHOOL—GYMNASTIC LESSON

Third Term. Colton's Zoology, Jordan's Animal Forms. Study of type-forms, dissection; microscopic study of protozoans; classification of insects and identification of species; collection of insects.

Fifth Term. Martin's Human Body. The text-book course is followed pretty closely, and supplemented by dissection of material from the slaughter-house and numerous experiments conducted by teacher and student.

Sixth Term. Andrews & Howland's Physics. Study of matter, motion, force, with their more obvious phenomena; gravitation and its formulas; energy and work; liquids, gases, heat and light; magnetism and electricity.

Seventh Term. Jones' Inorganic Chemistry. Experiments with oxygen, combination with solids; similar experiments with nitrogen; hydrogen and the halogens; tests for these elements made and recorded by students; chemical symbols, affinity, valence, the chemical equation; theory of atomic weight and volume; separation of principal metals; qualitative analysis of solids and mineral waters.

Eighth Term. Agriculture. Mainly the application of the preceding sciences to farming. The course is taken from bulletins issued by the State and U. S. Experiment Stations.

DRAWING.

First Term. Drawing to scale; use of compass and ruler; construction problems. Nature drawing; study of branches and leaves; drawing fruits and flowers. Study of models; section drawing.

Second Term. Study of perspective; models singly and in groups; landscape in pencil, charcoal and water color. Light and shade, one tone, graded line, overtone and broken line shading; models, trees and landscapes.

Third Term. Water color; use of brush, flat washes, landscapes. Decoration, historic ornament. Design, from historic motives and familiar units. Conventionalization of natural forms and geometrical figures.

Fourth Terms. Methods of teaching drawing; discussion of mediums and objects; study of type-forms; clay-modeling, blackboard drawing.

Eighth Term. History of art and industrial applications. Study of classic pictures and statuary.

SINGING.

First Term. Study of the scale as whole; intervals; humming exercises for accurate tone production; staff and musical notation; copying and dictation writing on staff; reading at sight; easy two-part songs.

Second Term. Modern music Readers I and II. Two, three and four-part singing. Standard music in Coda and Octavo Choruses.

Third Term. Minor and chromatic scales, accidental intervals. Study of classic songs from opera and oratorio.

Fourth Term. Chorus singing; original exercises in writing melody and simple harmony.

Fifth Term. History of music; method of teaching singing in public schools.

ATHLETIC ASSOCIATION
GYMNASTICS.

Free hand exercises and Swedish movements are given in assembly daily. The gymnasium classes take two hours a week

each. Two terms of normal gymnastics are required for graduation.

Swimming, tennis, golf, baseball or football, two hours a week, may be substituted for one term of gymnasium work.

PEDAGOGY.

Sixth Term. Monroe's History of Education. Study of mode and means of teaching in ancient and modern times, and development of principles of education. History of school work in United States and Louisiana.

Sixth Term. Psychology; Thorndike's Elements. Descriptive psychology, supplemented with experiment and observation.

Sixth Term. Observation of expert teaching in the Model School.

Seventh Term. Applied Psychology; Thorndike's Principles.

Seventh Term. McMurry's General Method and Method of the Recitation.

Seventh Term. Practice Teaching. Each student teaches in the Model School for one hour a day.

Eighth Term. Practice Teaching continued, one hour a day.

Eighth Term. Study of special method in each subject of the primary school.

PRACTICE TEACHING.

After observing the grade teaching in the Model School the student begins the practice teaching in the seventh term and continues it through the last term of the course. In the sixth term he has become familiar with the school and has seen the grade teachers at work in every subject taught in the school. In advance of his first teaching he is assigned to one of the grades by the training teacher; the grade teacher tells him what he is to teach and gives suggestions about preparation of his subject-matter. He prepares an outline of the series of lessons he is to give for a month, with a general statement of material to be used and mode of presenting it. This lesson plan is submitted to the critic teacher for approval. If approved, the student gives the series of lessons as he has planned, modifying it from day to day from his own experience or at the suggestion of the critic teacher.

The student teacher's work is observed by the grade teacher in charge of the room, by other student teachers and by the training teacher several times within the month; but the entire responsibility for the lesson rests with the student teacher. At the close of the school day, all practice teachers who have taught in a grade meet the teacher of that grade in an informal critique; the work of each practice teacher is frankly discussed, first by the teacher himself, then by the other teachers who saw the lesson given, and by the grade teacher. At the critique suggestions are given by the critic teacher and questions are freely asked by the practice teachers.

General critique is held once a week, conducted by the training teacher, and attended by all the student teachers, the grade teachers and many of the teachers of the Normal School.

MODEL SCHOOL—STUDENT TEACHERS

MODEL SCHOOL—TRAINING TEACHERS
THE MODEL SCHOOL.

The Model School includes eight grades and high school, ten rooms, with thirty-five pupils to each room. It is a public school, admitting pupils from any parish of the State, and is supported by State appropriation. It aims to exemplify the entire course of study prescribed for the public schools of Louisiana, and to illustrate the best teaching under the best conditions. The building affords ample accommodation for the regular class work and the practice teaching at the same time, thirty classes of about ten pupils each reciting at once. The lighting, heating, ventilation and seating are the very best.

Pupils of the Model School are under the instruction and control of the principal and nine grade teachers for the entire school day. For two half-hour periods each day, the lessons are given by students in the fourth year of the normal course; these lessons are prepared and given under direction and supervision of the training teacher and the grade teachers, and no lesson can be given before it has been examined and approved by them.

New classes in the Model School are formed at the beginning of each term, October 1st, February 1st and June 1st; and pupils will not be admitted later than two weeks from these dates.

REQUIREMENTS FOR ADMISSION.

Teachers should be strong men and women, physically, mentally and morally; and weakness in any of these respects disqualifies an applicant.

1. Age. Girls may be admitted after completing their fifteenth year, young men after their sixteenth. Girls in their fifteenth year and boys in their sixteenth cannot be admitted.

2. Health. Every applicant must present a certificate of good health and freedom from deformity. Blanks for this purpose are found in the back of the catalogue and the summer term circular.

Persons of consumptive tendency,
Those of frail physique,
Those of defective eyesight,
Those of impaired hearing,
Those who are of very small stature,
Those in a low state of health, and
Those who have a deformity—should not undertake the course.

Persons who have been exposed to contagious diseases, typhoid, yellow or scarlet fever, diphtheria, measles or small-pox, cannot be admitted without certificate from the Parish Health Officer.

3. Character. Applicants must present certificate of good character, signed by the Parish Superintendent. If not personally known to the Superintendent, the certificate may be signed by the Sheriff, Parish Clerk, Judge or Police Juror.

4. Scholarship. No student will be admitted on certificate of scholarship; all applicants are examined for classification.

5. Pledge. Students receiving free tuition promise to continue in school until graduated and to teach in Louisiana for at least one year after graduation.

MODEL SCHOOL GARDENS

THE PLEDGE.

I, Marie Augusta Achée, of Bayou Goula, Parish of Iberville, declare my intention to attend the State Normal School until graduated, and to teach in the public schools of Louisiana for at least one year after graduation.

(Signed) MARIE AUGUSTA ACHEE.

Natchitoches, La., January 22, 1907.

The pledge is not construed to require continuous attendance. Many of the best students attend for only one or two terms at a time, then teach for a while to earn money for the remainder of the course.

Honorable release from the obligation may be obtained from the president on account of

1. Inability to do the required work.
2. Failure of health or eyesight.
3. Pecuniary necessity; or
4. Family bereavement.

Students who do not expect to teach in Louisiana pay a tuition fee of \$20 a term, \$160 for the course.

Students from other States have the same privileges as Louisiana students, provided they promise to teach in Louisiana or pay the tuition fees.

GRADUATION.

The requirements for graduation are two; satisfactory completion of the course of study, and development of an acceptable degree of skill in teaching and control. They are equally indispensable; no amount of scholarship can take the place of teaching power, and no facility in teaching can atone for poor scholarship.

The diploma of the Normal School is a license to teach in any public school of Louisiana for four years. It may be renewed indefinitely by the Board of Administrators "upon satisfactory evidence of success, progress and good character." "Furthermore, the diploma of the State Normal School shall entitle its

NATURE STUDY LESSONS

holder to such degree of preference in selecting teachers for the public schools of the State as may be deemed wise and expedient by the State Board of Education."

Three classes are graduated each year, in January, May and September, but there is only one commencement exercise, in May, at which time diplomas for all graduates of the year are given.

DEMAND FOR GRADUATES.

The schools of Louisiana require four thousand white teachers. The average term of service is four years, and a thousand new teachers are needed each year.

Many of the Parish Boards now engage only trained teachers, and in every parish of the State some schools require normal graduates. As popular interest in the public school increases there is an increasing demand for trained men and women; and for several years the Normal School has had many more calls for graduates than it could supply.

Capable, well-trained teachers are eagerly sought by school boards, not only in Louisiana, but throughout the South. And every man and woman prepared to give superior service in the school-room may be sure of prompt employment in responsible positions at good salaries.

For several years the graduating classes of the Normal School have been practically all engaged in advance of graduation. The demand for trained teachers may be expected to increase from year to year; and the public school service offers an inviting field to the strongest and worthiest young men and women of the State.

GENERAL INFORMATION.

LOCATION.

Natchitoches is a town of three thousand inhabitants, situated a little northwest of the centre of the State, on the Texas & Pacific and Louisiana & Northwest Railways, a hundred and fifty miles northwest of Baton Rouge, and a hundred miles southeast of Shreveport. The town is two hundred years old and is full of historic interest.

MODEL SCHOOL,—MAY DAY EXERCISE

MODEL SCHOOL—SWIMMING POOL

GROUNDS.

The grounds include one hundred and two acres; fifty acres of beautiful lawn and fifty-two acres of magnificent pine forest. The lake in front of the lawn is a fine sheet of clear water, a mile and a half long.

The buildings stand upon a slight hill, overlooking the Red River Valley, one of the richest and most beautiful river valleys in the country; back of the buildings are the pine hills.

The site is beautiful and healthful, and the surroundings are such as to furnish ideal conditions for school work.

BUILDINGS.

There are seven buildings; Normal Hall and the Model School are used for school work, and the remaining buildings for dormitories.

A new class-room building, with auditorium, laboratories and other accommodations for a thousand students, is now under construction, and will be occupied in September, 1907. It will cost \$114,000.

REGULATIONS.

Students are expected to bear themselves with propriety both in and out of school, and to show due respect for order, morality, personal honor and the rights of others. Failure to do this is sufficient ground for dismissing any student.

Absence without previous permission or valid excuse forfeits the student's membership.

Neglect of duty, unbecoming conduct or irregularity of attendance will lead to the dismissal of the student.

It is the effort of the Administrators to admit to the privileges of the Normal School only those who are morally and physically qualified for the office of teacher, who are accustomed to rational living and endowed with the sense of responsibility. Lazy, sickly and untrustworthy students are dismissed without ceremony.

GOLF COURSE

EXPENSES.

Tuition is free to all who expect to become teachers; others pay the fee of \$20 a term of four months. Students taking special courses not leading to graduation pay the same fee.

The incidental fee for regular students is \$2 a term; for pupils in the Model School, \$1 a term.

Individual lessons in violin, piano and stenography are the only subjects for which there is a special fee; for such lessons the charge is \$16 a term of four months.

All fees are payable in advance. The incidental fee must be paid for a *fraction of a term the same as for the full term*.

The necessary expenses of a student in the regular course average about \$15 a month; for a student who takes the piano or violin course, about \$19 a month; and for special students about \$20 a month.

Board in dormitories costs \$3 a week; in private families, from \$3.50 to \$5 a week, according to accommodations furnished.

Washing for men costs about \$1 a month; for girls, \$1.50 to \$2.50.

The following is an average estimate of the cost of attendance to a regular student in the Normal School or the Model School:

Board 16 weeks, at \$3.....	\$48.00
Washing	5.00
Books and stationery.....	5.00
Incidental fee	2.00
	— — —
	\$60.00

SCHOLARSHIPS.

The General Assembly of 1904 provided that the Police Jury of each parish may make appropriation for the maintenance of a beneficiary student at the State Normal School.

The appointment should be made by the Police Jury, usually upon the recommendation of the Parish Superintendent or School

Board. There are no legal prescriptions regarding the qualifications for this appointment; but the Normal School recommends the following:

1st. The candidate should be one who earnestly desires to become a trained teacher and follow that calling permanently.

2nd. Candidates who have already taught in the public schools should be appointed in preference to those of equal merit who have not taught.

3rd. Candidates should be selected with regard to their intelligence, physical and moral strength, rather than acquaintance with the text-books. Competitive examination is about the poorest possible test of fitness.

4th. The appointment should be given to some one who would otherwise be unable to secure the normal training, to some one who really deserves help.

5th. Other things being equal, the appointee should be one who can finish the training course in the shortest time and take his or her place in the teaching corps of the parish.

6th. No one who is undersized, sickly, lazy or untrustworthy should be appointed, no matter how good his or her scholarship may be.

7th. It is to be strongly recommended that the choice of appointees be not limited to those who apply for it. The worthiest objects of the parish's assistance usually decline to ask for the appointment.

The ideal plan would be for each parish to hold out the beneficiary scholarship at the Normal School as a reward and recognition of superior service in the public schools of that parish; and, without waiting for applications, to award it from time to time to some capable and ambitious young teacher.

The appropriation should be about \$125 a year for parishes near Natchitoches and \$135 to \$140 for more distant parishes.

ALBY L. SMITH SCHOLARSHIP.

The Alumni Scholarship, established June, 1897, is called the Alby L. Smith Scholarship, in memory of the beloved training teacher under whom so many of the Alumni served their apprenticeship.

The beneficiary is selected at the annual meeting of the Alumni Association, and all expenses of the appointee are paid from the Alumni treasury.

Miss Annie Green held this scholarship 1897-1898; Miss May Lee, of East Baton Rouge Parish, 1899-1901; Miss Bertha Medlock, of Webster Parish, 1901-1903; Miss Olive Mather, of Rapides Parish, 1903-1905; and Miss Lena Smyth, of Avoyelles Parish, for 1905-1906. Miss Marie Himel, of Iberville, has been appointed for the current year.

ALUMNI LOAN FUND.

The Alumni Association maintains a loan fund, from which temporary loans are made to students in the last year of the normal course, to be repaid out of the first year's earnings after graduation.

STUDENTS' ORGANIZATIONS.

There are three excellent literary societies, the Seekers After Knowledge, the Eclectic Literary Society and the Modern Culture Club; they are known familiarly as the S. A. K., the E. L. S., and the M. C. C.

Their regular meetings are held every Friday or Saturday night. Joint meetings are held several times a year. At commencement there is an inter-society contest in oratory, declamation, extemporaneous speech, music, drama and parliamentary practice.

At the contest in May, 1907, the medal for oratory was won by Miss Jane George, representing the E. L. S.; the declamation medal was won by Miss Blanche Granary, of the S. A. K.; the medal for chorus singing was won by the chorus club of the S. A. K., and the contest in extemporaneous speaking was won by Mr. Moise Levy, of the S. A. K.

There are two athletic associations, one for men and one for women; baseball, football and basketball teams, a golf club and several tennis clubs.

There is a camera club, with lecture-room, dark-rooms, and all conveniences for picture-making. The pictures in this catalogue were made by members of the camera club.

FOOTBALL FIELD

RELIGIOUS SOCIETIES.

The Normal School is a public, unsectarian school. It aims to throw around the students refined moral influences and to develop high ethical and religious standards of living.

Students attend the services of the churches in Natchitoches, Baptist, Catholic, Episcopal and Methodist, and the B'nai Israel Synagogue. All of these have earnest members in the faculty, and students of every faith have abundant opportunity to observe all the requirements of their church duty.

The Young Men's Christian Association, the Young Women's Devotional Circle, the Apostleship of Prayer and the King's Daughters have efficient organizations for religious and charitable work.

LIBRARY.

The library has four thousand books and receives nearly a hundred periodicals, including daily and weekly newspapers, literary, technical and religious journals, and magazines.

It occupies a handsome room, well furnished, and is under the care of an experienced librarian all the time on school days. On Saturdays the library is open during the forenoon, and on Sundays during the afternoon.

LABORATORIES.

There are well-equipped laboratories of physics and chemistry, botany and zoology, and psychology.

THE BOARDING CLUB.

Five of the seven buildings belonging to the Normal School are used as dormitories for girls. Young men board in private families in town.

The boarding club accommodates five hundred girls. There are two hundred bedrooms, furnished with single beds, mattresses, chairs, tables, wardrobes, washstands, stoves and electric lights.

BASEBALL GROUNDS

Students provide their own pillows, sheets, blankets, bedspreads, towels and napkins. Feather beds, cotton "comforts" and quilts are not allowed in the dormitories.

Every bedroom is comfortable and properly furnished, but some are much more desirable in size, location or view than others. Choice is given to students who have lived longest in the club. *New students cannot choose rooms*, but are assigned to places by the Matron of the club.

There are nine bath-rooms, supplied with hot and cold water.

The club is governed by the president of the school, and receives his personal attention throughout the year. The young ladies are responsible to the Matron in charge of the dormitories. The business affairs of the club are managed by the cashier.

There is an Advisory Committee of seven club members, six students and one teacher, elected by the residents of each dormitory semi-annually, who report to the president and recommend such changes in regulations, service, fare or membership as the club members desire.

The beautiful Normal grounds are the home and recreation grounds of the club girls after school closes in the afternoon.

CLUB RULES.

1. Applicants must file certificates of good health and good character, and agree to observe the club rules.

2. Club members are required to conduct themselves with propriety, and to show due regard for the rights of others.

3. Members cannot leave the ground without reporting to the Matron, both on leaving and returning.

4. No member will be permitted to spend the night away from the Normal, and *requests to this effect from parents will always be refused.*

5. Girls living in the club are not permitted to receive calls from gentlemen.

6. Club members are not allowed to receive packages of food.

7. Medicines must not be kept in bedrooms. No narcotic, intoxicating or poisonous substance is allowed under any circumstances.

TENNIS AND BASKET BALL GROUNDS

Remedies for the simple ailments incident to school life are kept and dispensed by the Matron. When a student is sick enough to need attention of a physician, she is taken to the infirmary and placed in charge of a graduate nurse.

8. Club members may go shopping or visiting in town on Saturday morning, from 9 to 11:30 o'clock.

9. On Sunday club girls may attend any day service at the churches, and on Sunday night they may attend when accompanied by the Matron or a teacher.

10. For a minor violation of the club rules, a member may be put under arrest, which means forfeiture of privileges for the time. For any grave violation of rules or of propriety, for continuous neglect of duty, or unbecoming conduct, the member will be dismissed.

Nearly all the club members are preparing themselves for their life-work, most of them at their own expense. And with students of this class the largest possible liberty may be safely allowed. Every feature of the club management rests on the assumption that the students are capable of self-control, and that they desire to advance the interests and welfare of the club.

CLUB EXPENSES.

The charge to club members is \$3 a week. This is payable four weeks in advance. For less than a month the charge is 50 cents a day. For mothers, sisters and friends of club members, the charge is \$1 a day.

This charge covers board, room, fuel, light and service.

Students have their washing done by the laundries or the washerwomen of the town, at an average cost of \$2 a month.

In cases of protracted sickness, students pay for the services of physician and nurse, and for medicine and other supplies required for individual use. For medicine and attention given by the Matron there is no charge.

GENERAL.

In the fall and spring terms breakfast is served at 8 o'clock; luncheon at 12:30; dinner at 5, and sandwiches at 9 in the evening.

In the summer term early coffee is served in the dining-room, with rolls and fruit, at 6:30; breakfast at 8:30; dinner at 1, and supper at 6.

No rising hour is prescribed, and students are advised to sleep as late as possible in the morning. Negligée dress is not allowed in dining-room.

The cashier receives deposits from club members and pays money drawn against these deposits on every day of the week up to 4 o'clock, except Sunday; and on Sunday from 3 to 4, at the opening and closing of the term. The club becomes responsible for deposits, and losses are impossible.

Club members are advised to deposit their money *immediately after arriving*. *Money should not be kept in the bedrooms at any time.*

Clothing, towels, napkins and bed linen should be marked with the owner's *full name, not with initials only.*

Trunks and handbags should have the owner's *name and address* PAINTED on them. Initials and cards are insufficient.

The Boarding Club is open throughout the year, and students who wish to do so may remain in the club through the spring and fall vacations.

No one should come to the Normal School expecting to find accommodations in the club without having made application in advance. The accommodations are frequently overtaxed, and unless reservation of room has been made a new student cannot be sure of finding a place in the club.

New students should give notice a day or two in advance of their coming, so that they may be met at the station.

THE NEW BUILDING.

A modern class-room building, built of brick and terra cotta, to cost \$114,000, is under construction, and will be ready for occupancy at the opening of the fall term, 1907. The new building will be heated by steam, have forced ventilation, lighted by electricity, and furnished with the newest and best appliances of school work.

For further information about the school, address,

B. C. CALDWELL, *President.*
